Sarasota Avionics - Aircraft Avionics Sales, Avionics ...
History. The term "avionics" was coined in 1949 by Philip J. Klass, senior editor at Aviation Week & Space Technology magazine as a portmanteau of "aviation electronics". Radio communication was first used in aircraft just prior to World War 1. The first airborne radios were in zeppelins, but the military sparked development of light radio sets that could be carried by heavier-than-air craft ...

Avionics - Wikipedia
Avionics technicians are specialists who repair and maintain a plane's electronic instruments, such as radio communication devices and equipment, radar systems, and navigation aids. As the use of digital technology increases, more time is spent maintaining computer systems.
